

EXHIBIT M
NOTIFICATION OF MOVES, ADDS, and CHANGES

Moves, Adds, and Changes, *(any work performed on the basic link after tested and documented for Warranty)* must be Tested, Documented, and Reported to TYCO ELECTRONICS CORP. by an NDI in order to ensure the integrity of the Warranty and be included for the remainder of the Warranty period.

As with the initial installation, all work must be performed by or verified and tested by a TYCO ELECTRONICS CORP. NDI Contractor.

REQUIREMENTS:

1. Submit bi-directional test data, using a Level 2 tester or Level 3 tester, on a CD or USB Memory Stick for **ONLY** those **LINKS** affected by the Move, Add, or Change, (must be in the native format of the test equipment).
2. Submit Identification and Power Meter Attenuation readings for any fiber optic links affected.
3. Submit Bill of Materials indicating TYCO ELECTRONICS CORP. part numbers and quantities used.
